GRAS RA0525 FOAM INSERT FOR IEC 60318-4 711-STYLE EAR SIMULATOR, 10 PCS

GRAS Sound & Vibration
Skovlytoften 33, 2840 Holte, Denmark
www.grasacoustics.com

The RA0525 is a filter foam designed to protect 711-style ear simulators from dust and particles. It is shown in the product image installed inside a GRAS 711-style ear simulator (not included).
Each RA0525 set contains 10 individual foam filters.

Introduction

The RA0525 is a 30 PPI (pores per inch) filter foam designed for use with 711-style ear simulators, including models such as the GRAS RA0045, RA0401, RA0402, RA0403, RA0404, and others. It serves as a dust filter, protecting the internal components of the ear simulator from contamination by airborne particles. All GRAS 711-style ear simulators come equipped with this filter as standard. The RA0525 is available as a replacement part, intended for use when the original filter becomes damaged, clogged, or misplaced.

To install a new RA0525 foam filter, begin by removing any adapters or accessories attached to the 711-style ear simulator, ensuring the assembly matches the configuration shown in the product image. Using a pair of tweezers, carefully extract the existing filter and insert the replacement.

If you suspect dust contamination inside the coupler that may be impacting performance, please contact GRAS Support for further assistance. Alternatively, you may reach out to GRAS Service or your local GRAS representative to arrange for the product to be returned to our workshop for inspection and service.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones to industries where acoustic measuring accuracy and repeatability is of utmost importance in R&D, QA and production. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, and consumer electronics. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect and trust.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at www.GRASacoustics.com
